No. C.127-2 Enc. 2

Office of the Sanitary Commissioner with the Government of Mysore,

Bangalore Dated 16th August 1929

Sans 34-29-1

From

Dr.J.V.Karve, M.B., Ch.B., D.P.H.,
Sanitary Commissioner in Mysore, Bangalore.

To

R.Ranga Rao Esq., B.A., B.L.,
Offg. Chief Secretary to the Government of
H.H. the Maharaja of Mysore, Bangalore.

16 AUG. 1929

Sir,

With reference to your No.G. 1280/Med. dated 30th July 1929 regarding the improvement of general sanitation of urban areas to check the spread of Tuberculosis, I have the honour to state that I am in correspondence with the Municipal Councils of Davanagere, Tarikere, Bhadravati and Nanjangud in the first instance. I enclose herewith for favour of your information copy of letter No. E. T.15 29-30 dated 12th August 1929 from the President, Davanagere Municipality. On hearing from other Municipalities I shall address Government further.

I have the honour to be

Sir,

Your most obedient servant

Sanitary Commissioner M.G.

RR 16/8/29

K.A.J

Letter No. E.T. 15/29-30 dated 12th August 1929 from the President, Town Municipal Council, Davanagere to the Sanitary Commissioner with the Government of Mysore, Bangalore.

With reference to your Letter No. C. 127 dated 3rd August 1929 enquiring whether the Municipal Council has framed any proposals for action as directed in part 2 of Government Order No. G. 9157-68 Med. 43-27-49 dated 29th January 1929 regarding report on Tuberculosis in Mysore by Dr. Chandrasekhar, I have the honour to state that the Government Order was explained to the Municipal Council in detail at their meeting held on the 20th March 1929 and the same was recorded with the observation that the Primary necessity for this town was the removal of congestion by shifting the sheds and insanitary houses to Extensions and Cooly Colonies planned for the purpose. The Municipality has acquired a large extent of agricultural lands to the west and south of the High School for the purpose of extending the town and similarly for the formation of Cooly Colony behind Veerasaiva Ashrama. The Council have also obtained all the powers specified in Sub-section(2) of Section 149 of the Municipal Regulation from Government to enforce the removal of Houses and sheds from congested and insanitary areas. Many of the ugly and insanitary sheds that existed by the side of Bangalore-Dharwar Road have been got shifted to the New Cooly Colony.

A copy of the Town Improvement Works proposed to be taken up during the period of five years commencing from 1929-30 with the Government aid, is forwarded herewith for kind reference. The Deputy Commissioner, Chitaldrug District has been requested in this office No. 179 dated 4th March 1929 for moving Government in the matter of sanctioning their grant annually towards these works, to the extent noted in the Statement.

General Secretary to the Government of Mysore,
B a n g a l o r e.

SIR,

With reference to correspondence ending with your No. G. 7212 dated 14th December 1929 regarding the improvement of General Sanitation in certain urban areas to control the spread of Tuberculosis I have the honour to state that I have already with my office number C. 127-3 dated 16th August furnished you with report of action taken and proposed to be taken by the Davanagere Municipality.

I have since received replies to my communication to them from the Municipalities of Tarikere and Bhadravati. I enclose for favour of your information copies of the replies. The Nanjangud Municipality has not yet replied. I have sent them reminder requesting for an early response.

The promised report of specific lines of action taken has yet to be furnished by the Bhadravati Municipality. They have also been reminded to expedite the report.

I have the honour to be

Sir,

Your most obedient servant

Director of Health.

Letter No. 101/29-30 dated 29th November 1929 from the President, Town Municipal Council, Bhadravati to the Sanitary Commissioner with the Government of Mysore, Bangalore.

With reference to your Letter No. 127 dated 3rd August 1929 and subsequent reminder dated 5th November 1929 calling for proposals on the preventive action against the increase of tuberculosis, I have the honour to state that the subject has been referred to the Health Committee and the result will be intimated early after obtaining and examining their proposals.

" C O P Y "

Director of Health

Letter No. 303/29-30 dated 16th November 1929 from the President, Municipal Council Tarikere, to the Director of Health in Mysore, Bangalore.

With reference to your Letter No. C. 127 dated 3rd August 1929 inviting attention to the Government Order No. 9157-68/Med. 43-27-49 dated 29th January 1929, passing orders on Dr. P.S. Chandrasekhar's report on Tuberculosis in the State and asking to intimate whether the Tarikere Municipal Council has formed any proposals for action, I have the honour to state, that steps have already been taken by the Municipality to improve the sanitation of the town in the following directions: -

(1) A drainage scheme for the whole town has been passed by the Municipal Council and sanction of the Government is solicited.

(2) Steps are being taken to supply good drinking water by boring wells by machinery.

(3) Ditches are being filled up and every care is being taken to preserve the cleanliness of the town.

(4) Roads are kept in good condition.

(5) A Market is being constructed on modern lines.

(6) The approaches to the Railway Station and the Travellers Bungalow are going to be improved.

(7) A Public Park is going to be laid out on the land in front of the town hall and by the side of the Railway Station. Compensation for the land has been paid by the Municipality. As soon as the land is handed over to the possession of the Municipality, further action will be taken.

(8) With a view to remove congestion in the town action has been taken to lay out extensions, one in Fort Camp and another towards the west of the Special Magistrate's Court, on the advice of the Sanitary Engineer. It is resolved to acquire about 20 acres of land for the purpose. Sanction of the Government is awaited for the acquisition.

The Government Order is kept in view and will receive

the earnest attention of the Council as for as funds permit.

Sans 34-29-3

To.

N.Madhava Rao,Esq.,B.A.,B.L.,
Chief Secretary to the Government of
H.H.the Maharaja of Mysore, Bangalore

Sir,

With reference to your Letter No.G. 13689/Sany. dated 21st May 1930 regarding the improvement of general sanitation in certain Urban areas to control the spread of Tuberculosis, and calling for submission of replies from the Presidents of the Bhadravati and Nanjangud Municipalities if since received, I have the honour to forward herein enclosed for favour of information copy of report from the Nanjangud Municipality and a translation of the proposals of the Health Committee of the Bhadravati Municipal Council.

I have the honour to be

Sir,

Your most obedient servant

Director of Health.

Letter No. 866 dated 28th June 1930 from the President, Town Municipal Council, Nanjangud to the Director of Health in Mysore, Bangalore.

With reference to your letter No. 127 dated 3rd August 1929 regarding improving general sanitation in the urban areas in order to arrest the spread of Tuberculosis desired as per Government Order No. 9157-68/Med. 43-27-49, dated 29th January 1929, I have the honour to state that extensions for Hindus and Mohamadans have been laid out on modern principles and houses are being built with sufficient ventilation and open yards.

The old and narrow houses of the Adikarnatakas have been demolished and new extensions have been formed for these people on an elevated place.

Some houses in the Hullahalli Nala Street which joins the Jubale Road of the extension have been acquired for widening the road to 40 feet breadth thereby helping a good deal for the removal of congestion and dirt.

Prickly pear which had over grown in every part of the town has been almost completely removed.

The Municipal Council have got in view to shift the existing Adidravida Palya which is highly congested to a better, healthier locality and for removing congestion near the Mazid and for shifting few lanes in Chamalapur. We have also got a programme of constructing a vegetable market in a suitable locality to prevent indiscriminate sale of vegetables on the sides of roads and drains and for constructing a mutton stall and a slaughter house on modern principles.

Besides Bye-laws are being enforced to prevent building insanitary houses.

Proceedings of the Bhadravati Health Committee meeting held on the 2nd April 1930.

Subject: -

1. Report of the Municipal President, regarding extirpation of Tuberculosis and Dr. Chandrasekharaiya's suggestions to arres the spread of the disease and Bhadravaty Municipality requesting in their No. 101 of 29-30 to send proposals of the works to be immediately taken on hand on the lines of Dr.Chandrasekharaiya's suggestions.

Read Dr. Chandrasekharaiya's report on Tuberculosis and Government Order relating to it and recorded. To arrest the spread of Tuberculosis (1) suggestion to construct roads between crowded houses and thus lessen the number of populace. In this connection, arrangements are being made to acquire a place in front of the Railway Station and thus lessen the population at that place. Much money will be spent on this account. The place at Buthangudi to be acquired and sites to be made. Much money will have to be spent on this account also. House and shop sites are being made on the acquired land at Shimoga-Channagiri Road. Since much money will be spent for this, much attention cannot be given regarding other suggestions. By the time this work is finished (1) a survey of the crowded houses and people is to be made and which places are to be acquired first, is tobe decided in the first instance.

(2) Plans for the construction of houses to be made and given to those who will construct new houses.

(3) The disease Tuberculosis spreads on account of the insufficiency of light in the houses and the suggestion to arrest its spread: - Bhadravati Municipality should spend some money and have windows prepared and compel people to have windows to thei houses wherever they are found to be insufficient and recovery of the cost may be made in small instalments wherever persons are found to be poor.

(4) Since the houses are constructed in an insanitary manner, no license for the further construction of houses should be given

given unless every license is sent to the scrutiny of the Health Committee or Committee meant for this.

5. The town to be extended. Much crowding of people in one place as it is now, to be avoided and encouragement to be given to construct new houses fulfiling sanitary conditions and arrangements, Town extension to be made according to the programme of Mr. Marker, Town Planning Engineer and it was decided that the Municipality should be requested on these matters. The Model Bye-laws sent by the Bhadravati Municipality regarding this was read and recorded. It was decided to request the Municipality, to include these bye-laws in the Section 144 of the Municipal Regulation and bring them into force.

Director of Health.
